CORDIAL

#### BURDSAL'S

DIARRHEA CORDIAL -FOR-

Diarrhen, Asiatic Cholera, Cholera Morbus, Summer Complaint, and other Diseases that pro-duce a relaxation of the Bowels, whether on Children or Adults.

During the late war it was given to nany of our friends and volunteers in he army, who were suffering from Diarrhea, caused by change of water, unhealthy and improperly cooked food, and in every case it was used with the

best results. This is no quack nostrum, but the prescription of a regular and successful city physician of extensive practice and reputation; the prescription has been used for some years in our own families with invariable success.

Every family should have a bottle of this Cordial ready for immediate use. A single dose of only a few drops in the early stage of these diseases will often check and cure the disorder.

Travelers, who are subject to so many changes of water and diet, will find this a valuable article. The vials are small and strong, and can be carried without inconvenience.

#### IN USE. A Quarter of a Century's trial has Dem-

onstrated their Superiority. "Wheeler & Wilson's New No. 6 Machine must eventually supersede all others now known with which it comes in competition. We recommend for it the highest award which it is in the power of the Institute to bestow. " -- From the

unanimous report of the five Judges of the American Institute, New York, 1874. The Board of Managers unanimously approved the report, and recommended for this

machine the Gold Medal of the Insti-The Board of Direction unanimously approved this recommendation, and awarded the Gold Medal to Wheeler & Witson, the only Gold Medal awarded for a Sewing Machine by the American Institute for many years.

The Austrian Official Report of the Vienna Exposition pronounced it "the marvel of the Exposition," and added, "this universal machine sows the heaviest leather harness and the finest gauze with a truly pearl stitch."

The Grand Medal of Progress was awarded for it. What the Leading Mannfacturers of Boots

# WHEELER & WILSON'S

New No. 6 Sewing Machine.

and Shoes say of

We, manufacturers of Boots and Shoes, are using Wheeler & Wilson's New No. 6 Sewing Machine in all kinds of stitching on our work, and confidently believe that it will supersede all others in this branch of manufactures, for the following reasons:

1. The work done by this machine is superior to that of any other in variety, amount, excellence and beauty.

2. This machine is more durable than any other of its class, requiring much less outlay for repairs and renewal of parts. 3. It does the cording or staying of button

holes in a most elegant and substantial manner, without the expense of royalty. In short, because by the use of this machine we can turn out superior work at less cost than

with any other. (SIGNED BY MANY.) Ber It is fast superseding all other machines for leather work.

## WHEELER & WILSON'S New No. 7 Machine.

Now for the first time introduced to the public, ranks in excellence with their famous No. 6 Machine, but has some modifications adapting it to special classes of work. The Tailor will find it as well suited to his work as is No. 6 to leather work. It might property be termed the Tailor's Machine.
